EDUCATION

Beijing Jiaotong University

2025.9 - Present

Ph.D. Student in Computer Science and Technology

Advised by Prof. Yunchao Wei

Beijing Jiaotong University

2021.9 - 2025.6

B.Eng. in Energy and Power Engineering

RESEARCH INTEREST

Visual creation is a fundamental and enduring challenge in AI, aiming to faithfully translate user intent into customized imagery. My long-term goal is to build intelligent visual-creation systems that fulfill such customized needs. My research lies in (1) advancing generative models via training, data, and evaluation, and (2) orchestrating visual creator agents for complex creative intent.

RESEARCH EXPERIENCE

MT Lab, Meitu Inc.

2025.6 - present

Research Intern

Mentor: Ting Liu

- Research on image generation and editing via model post-training, and agentic systems (ongoing).
- Proposed **StructGen**, a framework for multi-reference image generation via structured context.
- Developed a real-image data construction pipeline and benchmark for human-centric scenarios.
- Set new SOTA on OmniContext with +25% facial-ID consistency over the next-best baseline.

Wei Lab, Beijing Jiaotong University

2023.11 - present

Researcher

Mentor: Prof. Yunchao Wei

- Conducting research on training-free image editing and T2I generation, leveraging pretrained T2I model capabilities for controllable editing and cross-image consistency without retraining.
- Contributed to **CharaConsist**, **DCEdit**, and **CVC** — three training-free attention-based methods for consistent generation and precise editing on DiT and flow-based diffusion backbones.

PUBLICATIONS & PREPRINTS

[Image Generation]

(Under Review, ACM MM 2026) [Jianing Peng*](#), [Mengyu Wang*](#), [Henghui Ding](#), [Zixiang Li](#), *etc.*;
“[StructGen: Disambiguating Multi-Reference Image Generation via Structured Context Modeling](#)”

(ICCV 2025) [Mengyu Wang](#), [Henghui Ding](#), [Jianing Peng](#), [Yao Zhao](#), [Yunpeng Chen](#), [Yunchao Wei](#);
“[CharaConsist: Fine-Grained Consistent Character Generation](#)”

[Image Editing]

(ACM MM Workshop 2025) [Yihan Hu](#), [Jianing Peng](#), [Yiheng Lin](#), [Ting Liu](#), [Xiaochao Qu](#), [Luoqi Liu](#), *etc.*;
“[DCEdit: Dual-Level Controlled Image Editing via Precisely Localized Semantics](#)”

(Under Review, ECCV 2026) [Zixiang Li](#), [Yue Song](#), [Jianing Peng](#), [Ting Liu](#), [Jun Huang](#), [Xiaochao Qu](#), [Luoqi Liu](#), [Wei Wang](#), [Yao Zhao](#), [Yunchao Wei](#);
“[On Exact Editing of Flow-Based Diffusion Models](#)”

HONORS AND AWARDS

Outstanding Graduate of Beijing

2025

National Scholarship for Undergraduates (GPA: 3.87/4.00, Rank: 1/64)

2023
